

**Delivered  
direct to your  
neighbourhood**

**Over 300  
full bin bags,  
every minute  
every hour,  
every day,  
for 30 years**

**Welcome to  
Pinkham Waste**

**[www.PinkhamWayAlliance.org](http://www.PinkhamWayAlliance.org)**

**The North London Waste Authority (NLWA) plans to build the UK's second largest factory for black-bin-bag waste in our North London suburbs. They plan to do this on open green land that is Grade I environmentally listed, right next to homes and schools on a fixed 30 year contract run by a commercial contractor.**

**They claim that factories of this type cause no problem.**

**We have listened to stories from people living with similar factories who were made similar promises in France, Belgium and Germany as well as across the UK, and a different story emerges – your home will most likely stink and your quality of life deteriorate from the associated noise, traffic jams, pollution, flies and reduced air quality.**

**So welcome to Pinkham Waste.**

### **Pinkham Waste location**

If you live within 3 miles of the North Circular junction with Bounds Green Road, Station Road or Colney Hatch Lane well then that's probably you - your home, your life, your 30 year future.

### **Pinkham Way Alliance**

So far, the battle has been fought with legal submissions and planning documents. But with the planning application going forward any day now, we have a massive fight on our hands. Now we really need you to join us. We're the Pinkham Way Alliance: a voluntary group with over 3,000 supporters from across Barnet, Enfield and Haringey.

*You can help stop it.*

**[www.PinkhamWayAlliance.org](http://www.PinkhamWayAlliance.org)**

### **Recent successes**

- The North London Waste Plan (NLWP) fell at the first hurdle when it was found to be legally unsound.
- Attempts to change the designation of Pinkham Wood to 'industrial land' were rejected.

**But** the North London Waste Authority (NLWA) is moving quickly to award a 30 year contract to a commercial organisation to develop and run a waste plant on Pinkham Woods. No legal plan? Who cares.

### **North London does NOT need another waste plant**

North London already has registered waste disposal sites covering an area the size of Finsbury Park. Why build a costly new plant when several existing sites in London are underused and have spare capacity?

Despite population growth; changing habits, manufacturing efficiency and improved recycling mean that the amount of waste being produced by Londoners is going down. Yet the NLWA plan to provide a 30 year guarantee of fixed waste levels (AKA profit) to Pinkham Waste owners. Even if you produce no waste at all for the rest of your life this corporate will be paid from your taxes.

### **The Cost**

In a time of deep cuts to public services, spending hundreds of millions of pounds of tax payers' money on a waste plant that isn't needed is **WRONG**.

We don't have enough space to mention the smell, traffic jams, pollution, noise and flies but you'll get the idea. If you live within a few miles of Pinkham Wood let's hope they never become more than words in a leaflet.

A hugely expensive, irreversible and unnecessary vanity project lacking the necessary support of a waste plan; designed so that waste will be **IMPORTED** into North London. Help us to say **NO**.

*You can help stop it.*

**Please help now.**

We are fighting on many fronts. Much of the battle is legal and so, even with our many volunteer experts, this is proving costly.

It's our communities at stake, our homes, our lives. If we don't stand up for ourselves, no one else will. Join us. Help us fund specialist planning and legal advice with a donation or even better make a monthly gift by standing order. Please give generously.
